

Technical Features	Benefits
Rich Client Application	<p>Ensures that the program operates responsively at optimal speed. Full functionality can be attained with a dial-up connection.</p> 
Use on a PC or a MAC	<p>The program can be used by virtually any computer user.</p>
Flash Interface	<p>The multimedia format provides vibrant video-game-like displays and interaction, increasing user appeal and entertainment.</p>
Automatic Installer	<p>The product is easy to install, whether from a CD or downloaded over the Internet.</p>
Automatic Updater	<p>Product enhancements are delivered seamlessly to users when they log in.</p>
Data Encryption	<p>Confidentiality is ensured.</p>
Data Mining	<p>Tracking and analysis of individual users and aggregated usage can be performed to indicate additional individual development needs, as well as to drive product improvement. Reporting can be flexible.</p>
Central Data Storage	<p>No data is ever lost as a result of computer problems, viruses or user error. Users can access their accounts conveniently wherever there is a computer with the software loaded and an Internet connection. No client server is required.</p>
Computer Delivery and Measurement of Exercises	<p>100% accurate delivery of the intended level of challenge and performance measurement. Consistency eliminates variations among administrators and use occasions.</p>
Feedback Systems	<p>Growth of the user's Safari Friend and real-time feedback from a computer response matrix provide encouragement and direction to the user.</p>
Remote Monitoring of Users	<p>The coach's view, available with the Professional Edition, enables a clinician, educator or parent to work with a number of users at the same time, and to monitor usage and progress remotely.</p>
Audio Instructions (available September 2005)	<p>Younger users can understand the instructions with minimal adult intervention.</p>
